ELECT NEW OFFICERS.

Medico-Clinical Meeting a Profitable one—Many Physicians in Attendance.

The meeting of the Medico's at the Elks hall last afternoon was largely attended and much interest and profitable discussion came up before the meeting.

This being their first meeting of the new year, the election of new officers was taken up and resulted as follows: Dr. A. S. Haygood, president; Dr. G. M. Rushing, vice-president; Dr. W. N. Armstrong, 2nd vice-president; Dr. J. A. Humphrey, secretary; Dr. H. W. Yates, Treasurer.

It was decided to have regular meetings on the 2nd Tuesday of every month. Two new members were added to the society, Dr. W. M. Wells and Dr. W. W. Beach of Mead.

"Nails."

"Nails are a mighty good thing—particularly finger nails—but I don't believe they were intended solely for scratching though I used mine largely for that purpose for several years. I was sorely afflicted and had it to do. One application of Hunt's Cure, however, relieved my itch and less than one box cured me entirely."

J. M. Ward,
Index, Texas.

Frightfully Burned.

Chas. W. Moore, a machinist of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result, "a quick and perfect cure." Greatest healer on earth for burns, wounds, sores, eczema and piles. 25cts at all druggists.

Arrested For Theft of Hogs—Tried For Larceny of Chickens—Hot Time in Court.

Bob Stacey, deputy marshal at Boswell, came in this morning having in charge Chas. Brownfield, Oscar Brownfield and Sam Turnbull of near Kemp, accused of stealing seven hogs of a near neighbor on the night of the 8th of Feb. They will be given a hearing this afternoon before Commissioner Elting's court.

The case of G. W. Riggs, living on Cale street, is being given a hearing before the commissioner's court this morning. He is accused of stealing about twenty chickens of Geo. Cook some time ago. From the evidence already in, it appears that Cook went to Corpus Christi for several days, and on his return missed his chickens. He went over to Riggs' and claims he recognized his chickens in Riggs' yard, and demanded the return of them. Riggs refused to return them, saying they were his. Quite a large attendance of witnesses are present, and the case is attracting quite a little interest from the part of town in which they reside. Riggs is a man of good reputation, so his neighbors say.

N. C. Moore was on yesterday placed under a \$500 bond, charged with introducing.

A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist church, Belair, Ga., says of Electric Bitters: "It's a Godsend to mankind. It cured me of a lame back, stiff joints, and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked 3 miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all stomach, liver and kidney complaints. Sold under a guarantee at all drug stores. Price 50 cents.

Mrs. Judge I. C. Parker came in from Ft. Smith yesterday, and will visit her son, C. C. Parker and family.

Perfumery

Of the right kind is a source of much pleasure. The pleasure of perfumery that isn't quite right is questionable at least, and poor perfumery is obnoxious. Every bottle of perfumery that comes in this store is selected with cautious care. It must be of the highest standard and a perfectly true odor. That which is called by the name of rose must have the fragrance of a rose. Let us be your perfumers.

CURTIS BILL CONSIDERED

Little Progress Made on It by Senate Indian Affairs Committee.

Washington, Feb. 13.—The Senate Indian Affairs Committee had the Curtis bill, as received by the subcommittee, under consideration this morning, but made little progress. Several of the sections were discussed, but no definite agreement was reached as to any of them.

The chief obstacle was the provision relating to the disposition of the coal lands.

Secretary Clark of Wyoming objected to the latitudinous power given to the Secretary of the Interior, and to the limitation of the time within which the mineral lands are to be sold. This, he thought, would tend to restrict bidding for the property. He proposed as an amendment that the authority to sell the mineral lands be vested wholly in the President.

Only eight members of the committee were present, and as they were equally divided on this proposition, decision was deferred until tomorrow, by which time it is hoped to have information on the subject that will aid the committee in reaching an agreement. It is the purpose to report the bill to the Senate Friday.

An Indian named John Painkiller was arrested in Tulsa for selling champagne. If Painkiller's champagne will dispel real pain as well as sham pain we think he ought to be released as a public benefactor. But if the booze was a mere sham pain killer then the real John Painkiller ought to suffer the full penalty. Painful? Yes.—Atoka Citizen.

Geo. Crowder, of Boswell, passed through the city today enroute to Atoka to finish filing on his claims.
